Ansco Film

is the Original and Genuine Film

THE facts back of this statement are matters of public record and constitute a remarkable chapter in the history of photography. Briefly, they are as follows:

In 1887, Rev. Hannibal Goodwin, of Newark, N. J., applied for a patent on the first camera film, thereby establishing his claim as the original inventor of photographic film. The letters patent were not issued to Dr. Goodwin until 1898 due to interference proceedings having been instituted in the U. S. Patent Office by competing claimants. The Goodwin Film and Camera Company, whose sole trade agent is the Ansco Company, brought suit for infringement of the Goodwin Patent and on August 14, 1913, after eleven years of litigation, Judge Hazel, in the United States District Court at Buffalo, N. Y., rendered a decision finding the Eastman Kodak Company guilty of infringement of the patent for the original and genuine Goodwin-Ansco film.

The court's decree was unqualifiedly affirmed in March, 1914, by the United States Circuit Court of Appeals, and the patent is given, under this decision, a broad and controlling construction, covering the universally used, modern photographic film in all forms, including cartridge film, film packs, and cinematograph, or moving picture film.

This is what we mean when we say ANSCO FILM has behind it years of experience of highest order and is the original and genuine film.

Ansco Film is the Perfect Film

The requirements a perfect photographic film must meet are many. Given a good camera and a deficient film, your results are worthless—but with a perfect film and only a mediocre camera you can be certain of obtaining a record of all that your camera is capable of giving you. To be classed as perfect a film must possess: 1. Ability to record true color value. 2. High speed. 3. Non-halation properties. 4. Good keeping qualities. ANSCO FILM meet all these requirements.

THE ORIGINAL AND GENUINE FILM COMES ONLY IN THE GREEN BOX

TUESDAY, MAY 11

The One Big Motion Picture Attraction of the Season

"The Diamond From the Sky"

A Continued Picturized Novel, Shown in Weekly Chapters, Beginning Tuesday, May 11.

"The Diamond from the Sky," is the \$20,000,000 prize photoplay selected as the best of 19,846 scenarios submitted. It will be the sensation of the motion picture world. A genius penned the story—a story full of heart interest and tense dramatic situations. It is more absorbing—more gripping than any screen production you have seen this year. Remember \$10,000 was paid for the scenario in the Chicago Tribune's \$10,000 prize contest. And another \$10,000 is being offered for a sequel to this prize play. This offer is open to every patron of this theatre. The magnitude of this offering is so great that a special cast has been selected to present it.

THIS ALL STAR CAST:

LOTTIE PICKFORD,
WILLIAM RUSSELL,
GEORGE PERIOLAT,
EUGENIE FORDE,

IRVING CUMMINGS,
CHARLOTTE BURTON,
W. J. TEDMARSH,
ORRALL HUMPHREY.

The greatest cast ever assembled in one production. LOTTIE PICKFORD, the famous Mary's younger sister, is the sweetest and daintiest of all screen stars. Her smiles, her eyes, her curls—make her an idol for movie fans. "The Diamond from the Sky," is little Lottie's triumph.

IRVING CUMMINGS is the leading man. In the vigorous, masculine role of the hero, no present day screen actor is his equal. He and Lottie Pickford play the role of the hero and the heroine in this picturized romantic novel.

WILLIAM RUSSELL plays the strong dramatic part and plays it only as William Russell can. His work is unsurpassed. The striking Charlotte Burton plays the bold adventuress. Her success in this new role eclipses everything she has ever done.

George Periolat—famous the world over for his character acting—plays the role of the gypsy, a difficult character part that calls for the extraordinary ability which George Periolat has. Others in this unprecedented cast are Eugene Forde, W. J. Tedmarsh and Orrall Humphrey. Never, in any film production has such a strong cast been selected.
